

Complex Manufacturing Facility for an International Client Daifuku Wynright

Location: Lake County, IN
 6300 Northwind Parkway
 Hobart, IN 46342

Becknell Industrial overcame winter conditions to build this manufacturing building on time and on budget. This facility will serve as the manufacturing and assembly of industrial handling related products for Wynright. Wynright, subsidiary of Daifuku North America, is a leading provider of material handling systems including leading-edge conveyor and sortation systems, voice-and light-directed order fulfillment equipment, PLC controls and robotics, and mezzanines and structures.

After submitting a competitive RFP, Becknell Industrial was chosen based upon qualifications and economics. Becknell provided the lowest construction bid and fee structure. Hobart, Indiana is a well-located location to serve Chicagoland while capitalizing on Indiana tax benefits.
